### Church Gate Collection

Dear Philip,

Thank you so much to you and everyone from Shannon Gaels GAA for taking the time and making the effort to organise a church gate collection which raised a fantastic €502.

We are deeply grateful for your continued support. Please pass on our heartfelt thanks to everyone who contributed.

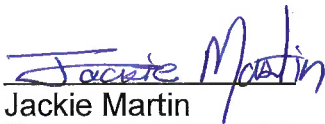

We work hard providing services such as specialised equipment and continue to fund home care hours. Our four MND Nurses are constantly on the road visiting families who need advice and practical information.

With more than 390 people living with Motor Neurone Disease in Ireland we must strive to ensure that each person affected receives the best possible care and support.

I would like you to know that none of this would be possible without people like you.

Thank you so much for being a real champion for people living with MND. Your support means so much.

Yours sincerely,

  
Jackie Martin  
Fundraising Executive

# Thank You!!

Our nurses – Katie, Louise, Eithne & Fidelma

***Without fundraising and donations we would not be here***

***86% of our income comes from people like you***

***Your contribution is ABSOLUTELY VITAL to families affected by MND***

- Your support means somebody with MND and their family has an expert MND nurse to turn to for practical advice and comfort. Having a nurse to talk to can be the difference between coping and not coping at all.
- Your support makes sure a piece of specialised equipment is supplied as and when it is required and as quickly as possible. A wheelchair or a communication aid for someone with MND can be a lifeline. A stairlift means they can remain in the comfort of their own home. A panic alarm system gives family members some peace of mind.
- Your support means we can look after carers who spend their days clothing, feeding and bathing their loved one. They need a break. Financial assistance towards home care gives carers 5 hours a week to take some time for themselves.
- Your support funds counselling sessions for an MND sufferer or their loved one. A diagnosis of MND is a shattering blow and someone affected often needs the opportunity to vent.
